

I'm excited to share that I've joined the AAAMS Aesthetics Network- A thriving community of aspiring and seasoned aesthetics practitioners. Together, we are helping each other learn, grow, and advance our careers in aesthetic medicine by taking advantage of everything the network has to offer!

- Professional connections and personal support
- Mentorship opportunities
- An exclusive learning library
- Job referrals and listings
- Special invitations to industry events
- Discounts on aesthetic training courses

...and much, much more! I value this opportunity because it offers me a wealth of professional support while also letting me be of service to other aspiring and established practitioners.

Not familiar with [AAAMS](#)? It's the American Association of Aesthetic Medicine and Surgery — the premier, fully-accredited platform for top-tier aesthetics training and certification. With over 5,000 successful graduates to show for its innovative courses, it's been a pioneering industry leader for more than fifteen years. (You can see why I'm so happy about being a member!)
